

Pressbooks Public

Become the Center of the Indie eBook Movement

With Pressbooks Public, your library can help local authors not only gain a readership base in the community, but also create sleek, professional print books and eBooks with ease. Then, authors will be able to obtain their files to distribute through any venue as they see fit. Once the authors have their files, they can share their eBooks with your local library and make them available to *Library Journal* curators seamlessly through the SELF-e program.

Through this one of a kind community engagement platform, patrons can write, design and create sleek eBooks and print files in all of the major formats (ePUB, Mobi and PDF) that meet the requirements of both eBook distributors and print-on-demand vendors.

With Pressbooks Public as a part of the Author Engagement Package, there's nothing your library can't do to help the writers in your community. From helping them to create their books to making them available to the patrons in your community, you are able to be there for your local authors from start to finish using Pressbooks Public, SELF-e and BiblioBoard Library.

”

Catherine Royalty

Los Angeles Public Library Acquisitions Manager

“We are thrilled to add Pressbooks Public to our resources for our active local author community. When combined with BiblioBoard, it empowers our users to create a professional, polished final product, and it fits in beautifully with our use of the SELF-e service.”

MEDIASHIFT
YOUR GUIDE TO THE DIGITAL MEDIA REVOLUTION

“Pressbooks Public creates a seamless channel for an author’s creation of an e-book available for distribution not only to regular commercial channels but also to U.S. library collections through SELF-e.”
